supports sex trafficking – uneducated children are most vulnerable – an education can break the cycle of poverty to the sex trade.

Chicken Project - provides eggs, meat and money to poor families.

Pig Project provides a female pig whose piglets are raised and sold to buy more pigs – this provides money to poor families.

Water Filter Project – provides drinkable water at no cost to small communities.

Agape Home for Girls – provides housing, meals, clothing to impoverished girls.

MOGI assists the students by sharing the love of Christ through camp programs. MOGI is also involved in a prison ministry – many prisoners give their lives to Christ.
